Thurs 14th June -Summer production (6:00pm start)

– Friday 15th July—Leavers' service (14:00 at school)

News

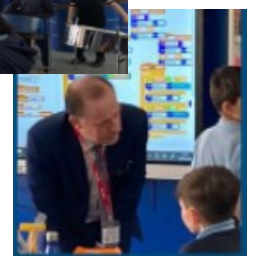

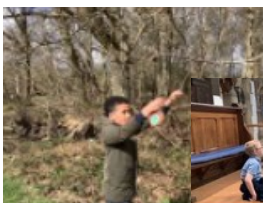

Wow ! Can you believe it is already our final term? Well, time flies when you're having fun! So, as we embark on our final learning adventure together, it is with great pride, that we share what a wonderful learner and young person your child has become. This is an extremely important term, a term that we have been working so hard for; however, a SATs result does not define a child and we know that the journey your child has been on will see them grow and flourish as a young adult. The pride and willingness they gave to our community 'the save our planet– energy in schools' project and the effort they put into fundraising just shows their increasing ability to think of others. On the occasions we have left the school (the Reading trip, the Easter Experience at the church, the walk to the country park) our Jennett's Park children have shone amongst the other schools. They conduct themselves with a maturity and kindness that is infectious and inspiring to others.

The Year 6 teaching team look forward to our final term together. May it be filled with learning, laughter and love.

As always, the door is always open.

Warm summer wishes—Mr Page and Mrs Ballard, Mrs Butcher and Mr Henry.

Living life in all its fullness.

Year 6

Summer 1

April/May 2022

	Numeracy	Literacy
Week One	Angles—of a straight line, of a triangle and how to find missing angles.	SPaG review
Week Two	Residential	Residential
Week Three	Using the 4 operations with Fractions. Finding different Percentages.	Leaflet about the ultimate Year 6 residential experience.
Week Four	SATs week	Leaflet about the ultimate Year 6 residential experience.
Week Five & Six	Formula one race planning	Incident reports based on the class text Ghost by Jason Reynolds

This term, we will be focusing on preparation for SATs. Our afternoons will be filled with SPaG, speed maths games, spelling games, art based around our class text: Ghost. In P.E. we will be focusing on catching and throwing skills and will play the game of Kwik Cricket (our main day will continue to be Thursday). We will continue with Lego and steel pan drumming. In Geography, we will improve our location knowledge and consider the best location for the next major sporting event. In DT, we will plan and make a model In computing we will code micro:bits to act as pedometers.
