Maintenance & Security Technician Level 2

Pay scale BG-I (SCP 6-14) plus London Weighting

39 Hours Per Week permanent (inclusive of overtime) permanent or 20 hours (inclusive of overtime) for 2 years for the right candidate!

Required as soon as possible

Come join our team where staff satisfaction is high and the team truly supportive. We are described as allowing others to shine brightly in their roles. We would be willing to consider for the right candidate a half timetable shared role (20 hours) for 2 years with willingness to extend.

The role involves taking the lead on site management. We are looking for a Maintenance and Security Technician to join our well-established site team who work together to ensure that our school buildings and school estate are maintained to a high standard and remain secure at all times. This is a varied role where you will work with the team to ensure that the school estate is kept safe, tidy and to a good level of aesthetic standard.

This is an all-year, full-time role which includes some out of hours work. You will be part of the site controller scheme which requires you to be available for up to 30 hours overtime per month, occasionally including weekends in order for essential maintenance work to be carried out. Therefore, flexibility is a must and the School is open to discussions about your working hours to accommodate the right candidate.

A strong work ethic and a commitment to maintaining standards, an eye for detail and a proactive approach are essential. A willingness to work with basic IT (email and site management systems) and a good sense of humour are also necessary!

We warmly welcome you to visit us in person or if you would also like you can visit our website to access the virtual tour to view our school. <https://www.jennetts.bonitas.org.uk/headteachers-office/welcome/school-tour/>. Please contact us to arrange a visit to the School.

Interested in being part of our team? Please see our attached Job description and Person specification for further details.
