Re: Y2-6 The Drone Rules

Dear Parents and Carers of Y2- Y6,

We are thrilled to welcome Drone City//The Drone Rules between Monday 30th October and Wednesday 1st November.

We eagerly anticipate the opportunity to bring a truly memorable, educational experience to our students. This supports our work to build skills for children in learning to effectively code and develop their future prospects. Children will be able to be 'hands on' and code with various sized drones and enjoy lots of demonstrations.

Will and Bryanna @dronecitybooks and www.dronecity.io will come in and inspire our children with coding and a planned flight of drones.

Drone City is a fictional place where friendly drones and humans live in harmony. It is Paw Patrol meets Pixar's Cars, but BIGGER. A green city run on clean energy. There is no poverty and humans thrive in leisure, the arts, science, and technology.

Drone City was spearheaded by the fictional character, Will. Will is a successful inventor and aerospace engineer with an iron will to make the world a better place for everyone. He designed all the drones in Drone City and helped innovate the green energy it runs on with the help of the world's leading scientists and engineers.

We may even be able to invite parents in to watch a drone flight performance that the children will have coded at the end of the day but this is weather dependant! The cost for this workshop is £8.41 per child. In order for this exciting opportunity to take place, we would ask that this voluntary donation be made via sQuid as soon as possible.

Many thanks for your continued support.

Yours excitedly,

Elizabeth Savage
Headteacher
