General

All potential users of a premises (whether users or other third parties that may be using parts of the premises at no cost), hereby referred to as “the User” should submit a completed Application Form to the School Business Manager, at least 28 days before use of the premises is required.

The Application Form sets out the responsibilities of such Users and the relevant parts must be completed in full. The User must agree that they have read and accepted the various conditions by ticking the boxes on the right-hand column of the Application Form.

All lettings will be at the discretion of the Headteacher and can be terminated, without notice, for improper use. If an application is authorised, an official Approval Notice to Use the Premises will be issued to the User and will be reviewed on an annual basis.

The Site Manager must be consulted, by the Finance Manager, prior to acceptance of bookings after 6.00pm and at weekends and school holidays to ensure that the unlocking and securing of the premises can be arranged. School premises must not be let to any person under the age of 18, or any organisation or group with an unlawful or extremist background.

Jennett's Park CE Primary School and its Governors also reserve the right not to allow use of its premises to individuals or organisations if there is reason to believe the name of the school will be brought into disrepute.

Transfer of Controls

The governing board of the school controls the school's premises both during and outside school hours, except where a trust deed allows a person other than the governing board to control the use of the premises, or a transfer of control agreement has been made.

Governing boards can enter into transfer of control agreements in order to share control of the school premises with another body, or transfer control to it. The other body, known as the controlling body, will control the occupation and use of the premises during the times specified in the agreement. Transferring control of the premises to local community groups, sports associations and service providers can enable school facilities to be used without needing ongoing management or administrative time from school staff.

The governors will agree to transfer to the User control of the premises, hall, additional school areas during the hire agreement (see terms and conditions.) This agreement will start on the date set out in the hire agreement and remain in effect until the agreement expires, unless the agreement is ended earlier under special notice.

Ending the Agreement

The Governors may end this Agreement by giving the User two months' written notice, at any time.

The Governors may end this Agreement immediately by notice given by them:

- If at any time, any payment due under this Agreement remains unpaid for more than 28 days after becoming due
- If the User fails to remedy any breach of the stipulations and conditions contained in this Agreement after being required to remedy such breach by 28 days' notice in writing
- If the User breaches any of the stipulations and conditions in this Agreement which is, in the opinion of the Governors, incapable of being remedied and the Governors state this in a notice given by them.
- In extreme cases the Governors may terminate this agreement summarily without notice and the User's attention is specifically directed to the safeguarding paragraph of this agreement.
- The User may end this Agreement at any time by giving three months' written notice to the Governors.

The User must maintain public liability insurance in the sum of five million pounds (minimum) per claim and employer's liability insurance in the sum of five million pounds (minimum) per claim. The User must pay all premiums or other costs arising in the provision of such policies of insurance referred to above and ensure that the policies or certified copies are produced to the Governors before hire commences. For private Hires for example for a birthday party, public liability insurance is not required by us. Our insurance policy includes cover to individuals and organisations in respect of damage to the school property arising from the hire of premises, for which the individual or organization is held legally responsible under the terms of the hiring agreement. However, our insurance policy does not cover anyone contracted by the Hirer to attend the function, e.g., party entertainers.

School Security

Only named key holders may operate the security system. Keys should not be passed to any other person without direct permission of the Governing Body of the school.

The User is to control security measures for the area that is hired and have a register of all people on the site for the duration of the activity. Any area that has not been hired is out of bounds.

The Governors may give verbal notice, at short notice, to the User that the Premises are temporarily unavailable and will be controlled by the Governors in the following instances:

The Governors may give a fortnight's notice, in writing that the premises are to be temporarily unavailable to the User where the premises are required by the Governors and will state in such notice the period during which the Premises are to be unavailable.

In such circumstances the governors, Jennett's Park CE Primary School or Bonitas Academy Council will not be liable for any loss financial or otherwise incurred by the User.

Fire Safety

It is very important that the fire safety arrangements for the premises are maintained when used out of school hours. The Users must be made aware of their fire safety obligations. The following points must be noted:

- The purpose and the part of the premises which are to be used should be stated and agreed. Permission must be sought by the User for any 'unusual' use of the premises and a Risk Assessment will be carried out by the School Business Manager before use is agreed
- The User should be named as the 'responsible person' and that person shall be solely responsible for the actions of persons using the premises during the letting period as defined under the Fire Safety Order 2005. Appendix 1 Fire Safety

General Fire detection:

There are two types of detection provided in our premises:

- a. Automatic – smoke and heat sensors
- b. Manual break glass units which are red boxes located by all exits around the premises.

Both the automatic fire alarm and the manual break glass system are maintained under contract.

A weekly bell test will be conducted on the manually operated fire alarm system utilising different call points each week, a record of this test will be recorded in the fire log book held by the Site manager.

Fire extinguishers:

A plentiful supply of extinguishers is provided around the premises at fire points, suitably signed, wall mounted and regularly serviced and maintained annually by a competent contractor.

Training in the use of extinguishers is given as appropriate and all employees are instructed only to fight a fire with equipment provided if they have been trained and if it is safe to do so, never taking risks.

Fire doors:

All fire doors are suitably marked and most are fitted with automatic closure devices. These devices allow the doors to be held open but automatically shut when the fire alarm sounds. Any employee finding a fire door blocked or locked should report it to management immediately.

Fire escape routes:

Signs showing the nearest exit routes are displayed around the building. Fire escapes must be kept clear at all times. Any employee finding a fire escape route blocked or obstructed should report it to management immediately.

Exits:

All appropriate exits have an 'Exit' or 'Fire Exit' sign. All corridors should be kept clear and unobstructed and all exits must be available for use and not locked except by means of escape using a panic bar which should be clearly indicated by the words 'PUSH BAR TO OPEN'.

Safety lighting:

Emergency lighting is provided throughout the school's premises and is maintained and tested every six months. Records of all tests and maintenance are kept by the Caretaker.

Safety advice:

Before any event commences visitors will be briefed by the person in charge (i.e., The Headteacher, User or his/her representative) of the school's fire evacuation procedures and which exits to use in the event of a fire.

Drill:

Members of the public are to be made aware that should the fire alarm sound during any event, the building should be immediately evacuated as it will not be a drill.

Smoking:

The school is officially a no smoking building. Therefore, smoking is not allowed within school premises and notices to that effect are displayed on each of the school gates.

Fire assembly point:

Should it be necessary to evacuate during an event, the designated Fire Assembly Point will be the nearest playground to the evacuation point, where a roll call will take place.

Fire evacuation procedures

The following procedures should be carried out in the event of an evacuation whilst class based:

- People should evacuate via their nearest exit and congregate in the nearest playground, away from the building.
- They should leave the school building quickly, in a quiet, orderly manner.
- They should not stop to collect their belongings.
- A roll call should be taken to account for all present and to identify if any person is missing.

The designated Fire Warden will 'sweep' the area in use, if safe to do so, to ensure that no persons are left within the school building.
